PUBLISHER'S NOTICE. WIIS WORK was commenced in November, 1864, the computation of the author then being that it could be comprised in one thousand four hundred pages, and would occupy swe years. Many unlanked for obstructions, chiefly of a typegraphical nature, materially retarded the progress of the work in the first lustance, and these being evercome, the author discovered that he had underestimated the extent and the importance of the vist took he had undertaken, and that i would occupy fully double the time and space which he had at the outset computed. The publication of a work of such magnitude and prescriting so many and such varied obstacles. seldom falls to the limited resources of one single individual, as occurs in this case, The first part of the work is now issued, partly at the request of the author and partly to afford the Poreign Community of China an opportunity of extending that assistance to the publisher, which under the direumstances is usually so freely accorded. The price of the book complete, will be \$30. and it will be nublished in four parts at \$7,50 each. But this objection presents itself to the asis of the parts separately, should the purchaser of one or more parts not take the others, a number of incomplate, and consequently valueless; expicawill be left on the publisher's hands. To remedy this objection, in consideration of the circumstances already alluded to, it is hoped that those who see fit to patroni-e the undertaking by pur-Obsering the first part, will not object to signing an
